

Project Design Phase-II

Data Flow Diagram

Date	15 October 2022
Team ID	PNT2022TMID32908
Project Name	NEWS TRACKER APPLICATION
Maximum Marks	4 Marks

Data Flow Diagrams:

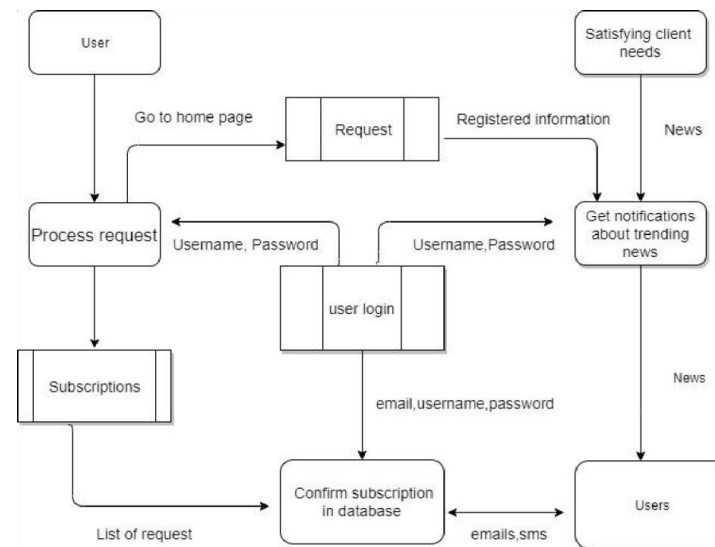

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified) Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the DS.js library.

Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Browsing	USN-1	Enter the web site on the browser	I can even login through browser		
Customer (Web user)		USN-2	As a user, I can register for the application by entering my email, password, confirming my password and phone number.	I can access my account / dashboard	High	Sprint-1
		USN-3	As a user, I will receive conformation email once I have registered for the	I can receive conformation email &	High	Sprint-1
		USN-4	As a user, I can register for the application through Gmail	I can register & access the dashboard with Gmail account Login	Medium	Sprint-1
	Login	USN-6	As a user, I can log into the application by entering email & password	I can login to the official page	High	Sprint-1
	Dashboard	USN-7	Day to day news, feeds, categories, tech news and other updates after we save the news article for later read	I can see all the news which I wanted	High	Sprint-2
	Local News Post	USN-8	As a user can enter post their News article based on user's location , It can be authorized by that local people	I can post my local news which people want	High	Sprint-3
	Local News authorized page	USN-9	Local users can authorize the news and push into the local news category in their location	User can Authorize their news based on their location	High	Sprint-4
